

VISION

Assistive Technology Packages

80% of what a child learns in school is presented visually. Thanks to assistive technology, students with visual impairments can complete tasks with their classmates.

Our goal is to provide the tools needed to succeed!

Our various customizable Laptop and Desktop packages are for people with a need for vision assistive technology that will allow them to magnify and read things whether at home or on the go.

Each Package Includes:

Anti-Virus, Microsoft Office Home and Student or Professional & typing software. Laptop Carrying Case, All-in-one Inkjet Printer. Set-up, Software Installation & Update, Testing, and Staging. Option of 1 or 3 year warranty. Optional 4 hour training available.

OPTION 1

Laptop or Desktop Package

Reinecker Mezzo HD CCTV, Magnifier and XY Table

The Mezzo HD is compact, with an integrated HD camera that ensures that pictures or print are displayed. Mezzo is simple to operate, with only three buttons, and easy to unpack and fold.

OPTION 2

Laptop or Desktop Package

With

Topolino Smart Magnifier and XY Table

The Topolino Smart USB Camera is a great electronic magnifier that can be plugged into a computer's USB or VGA port to deliver an amazing high-resolution image for users with a visual impairment.

OPTION 3

Laptop or Desktop Package

Explorer HD 19", 22", 24" or LCD 19", 22" with Line Markers

The Explorer Magnifier can be used to magnify text or an image. View photos, maps, craft projects, or to write checks, bills or to read newspapers, prescriptions, and mail.

CCTV (CLOSED CIRCUIT TV)

Our CCT (Closed Circuit TV) brings in the new era of video magnification design to serve the needs of the individual user with HD Resolution and flicker-free quality. The Adjustable monitors provide the most ergonomic viewing; and the simplicity of just three buttons to operate the system make this the perfect system for young learners of all ages.

**Reinecker Mezzo HD
CCTV, Magnifier and XY
Table**

**Topolino Smart
Magnifier and XY Table**

**Explorer HD 19", 22", 24"
or LCD 19", 22" with Line
Markers**

Unique Package Benefits

HD Camera – The HD camera provides the visually impaired student with a crisper and clearer image unequalled by cameras with lower resolution.

HD Monitor - The student will truly enjoy HD screen with adjustable viewing angle for sitting down as well as standing up and adjustable brightness and multiple contrast options. The 15.6" screen size gives the reader the same visible reading space as a 17" horizontal surface.

Portrait Mode - To enjoy reading newspapers, magazines, books, etc. the student simply rotates the monitor Counter Clock Wise to Engage Portrait Mode and adjust it to a comfortable reading position.

Magnification - To provide students with visual impairments with a better overview and orientation of the reading material, the minimum magnification of the new mezzo HD starts automatically at x2.2 and can be continuously increased to x90.

Turn the Power On - Three Buttons Control the Power of the High Definition Electronic Magnifier: The Power Button is used to control the off and on power switch to the system. The Illumination Button controls the brightness of the screen. The Battery Indicator Button indicates the remaining battery power.

System Operation - The system is so easy to operate that students of ages 5 to 18 will not have any problems navigating the three buttons that control the High Definition Electronic Magnifier:

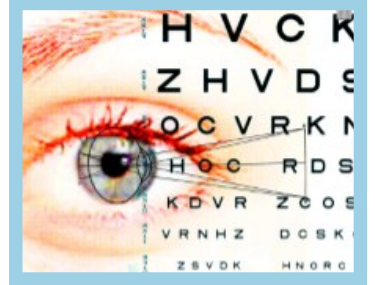

- Left Knob Button – Color Selection (Full Color, Black & White, White on Black, Yellow on Black, Green on Black, Yellow on Blue)
- Middle Knob Button – Magnification (Auto Focus Turned on Automatically)
- Right Knob Button – Color Saturation and Brightness. Pull out Right Knob Button to Engage The Line Ruler & Mask

Mobility Package - The push button folding mechanism that enables it to fold into a small size for easier storage and carrying makes the Mezzo easy to transport. The monitor is small enough to easily move it from one classroom to another class-room on campus or to transport it to the student's home. Transport and installation is easy simply unpack and unfold. The optional Mobility Package with a battery makes the system very portable. The battery can last: 2.5 Hours at Full Illumination. 3.5 Hours ½ Illumination. 4.5 Hours with No Illumination.

Electronic Magnifiers

(8 0 0) 5 5 0 - 8 7 8 3

All of our Electronic Magnifier Packages are designed to provide students who have vision impairments better interaction in a classroom environment with assistive technology products. Each package can be individually customized to the end user's needs and preference. Each package is designed so that the computer and assistive technology can be easily utilized by K—12 students. These packages will help in facilitating a better student-teacher

classroom interaction on a daily basis. Our extensive line of reading magnifiers, electronic magnifiers and low vision aids will help students regain their visual independence to read, write, or watch video lectures anywhere on campus or at home.

Our Customer Service Pledge

We pledge to our customers that every package we create will be based on the disability needs of the individual student. Each package is custom built, configured, and tested before it is shipped. In addition; each computer system comes ready-to-use, completely turnkey right of the box. These packages include:

- Complete one year hardware warranty
- One year full sales support plan
 - Unlimited technical support
 - One year software recognition, reconfiguration, installation, troubleshooting, and testing
 - One year virus, malware, adware, and spyware removal services

User Benefits

- Easy on the eyes of the user because of the clear enhancement
- Can be used on different computers
- Allow the user to change color to fit their viewable comfort and eyes; user friendly for color blind people
- Read instantly and easily from text to speech
- Developed to be user friendly for all ages
- Read various printed materials such as newspaper, books, bills, and etc.
- Helps the user begin anywhere they want and read at their own speed by simply rewinding, skip to forward, or pausing. The crystal clear text and the highlighted boxes make it easier to indicate where the user is reading.
- Just a usb is required and it is easy to use for clients in need of magnified text
- Produces natural sounds which is easier on their ears when listening to the program
- The text will remain smooth and crystal clear even when adjusting to different screen sizes
- Saves the user's printed materials to PDF and have access to the PDF files in other computers

mezzo

big enough to read – small enough to carry

mezzo is a compact electronic magnifier with a distinguished flatscreen technology. The integrated High-Definition (HD) camera ensures that pictures or print are displayed in high resolution – flicker free quality. These unique features are available to users at home, in school or university, at work or on the Go.

The adjustable monitor offers the most ergonomic viewing position for all activities. Simple operation is guaranteed with just three buttons involved.

Transport and installation is easy as mezzo is simply unpacked and unfolded. mezzo can be upgraded with an optional XY-table and a mobility package including a battery and a practical carrier bag, which makes mezzo the ideal companion in any situation. Battery time can be increased by setting the illumination to medium light.

Your benefits

- ▶ a compact reading system with low vision high definition picture quality
- ▶ easy for anyone – young or old alike – to carry, install and operate
- ▶ modern design for a contemporary look
- ▶ ergonomically superior with adjustable monitor position, compact design which requires less space
- ▶ flicker free picture in HD quality reduces fatigue and eye strain, thus improving duration of use

Our Low Vision High Definition camera technology offers a resolution which is 4.25 times higher than standard systems.

In combination with progressive scan you will get a detailed image of superior quality.

Everything you'd expect from a portable, multifunction device:

- Distance and near magnification
- Image Capture
- Autofocus
- Contrast enhancement

MANO

Stylish, compact portable magnifier

At home and on the Go you need a magnifier?
You like to use products that are stylish and easy to handle?

MANO sets new benchmarks:

MANO offers you a pin-sharp image and an infinitely variable magnification.

The snapshot function for saving three pictures or information offers you instantaneous help for memorizing important details, i.e. a telephone number, departure time or a price. At the push of a button you can capture small print that is out of your visual range, like timetables, notices and labels.

MANO will help you to read and write. Due to its high-quality appearance MANO is your stylish companion.

Your benefits

- ▶ snapshot function for saving of three freeze images
- ▶ image scroll function for magnified viewing of all picture details of saved images
- ▶ illumination with amplified contrast and five colour modes

The MANO portable system provides

- ▶ an illuminated display and fold-out writing stand for convenience and comfort
- ▶ controls that are clear, simple and easy to use
- ▶ mains and battery operation for flexibility

miniMAX

Easy. Portable. Reading on the GO.

With 2.8" in size and only 5 oz in weight (incl. battery), miniMAX is a small and lightweight portable magnifier. miniMAX is easy to operate with only three easy accessible buttons and a helpful companion for everybody who benefits from magnification. Three zoom levels offer a magnification up to 6.5X in high contrast display. An integrated clip assists while writing. Of course a variety of different foreground or background colors can be selected. And the freeze picture mode allows the user to capture pictures from a small distance and read it comfortably in the desired magnification and color.

You will be amazed by the simplicity of this powerful magnifier.

Your benefits

- ▶ Easy to operate
- ▶ Freeze picture mode
- ▶ Integrated clip for writing
- ▶ Magnification in three steps up to 6.5X
- ▶ Rechargeable battery can be easily replaced
- ▶ Can be used in battery and / or power mode

Looky⁺
